## Safety alerts:

Stay on the trail path at all times. There's poison ivy! Respect our neighbors and their property rights. Loitering near gas wells will result in cancellation of your reservation without refund. Hiking trails alone is prohibited. An adult must accompany youth under 16 at all times, regardless of activity. Follow safety signs by water. Drowning is the number one cause of death for children 1 to 4 years old in the U.S. Yes, we know we are being a bummer, but safety matters. Also, have fun out there!

Yeah, I know that's a bad transition, I'm just the sign-making guy trying to put in an honest days work.
